URGE OPEN MEETINGS

Resolution Adopted Asking That Board of Education Admit Public

The Central Labor Union of Washington in open meeting last night asked that the Board of Education of the District in future hold sessions open to the public.

This was advocated in a resolution proposed and unanimously passed by more than 100 delegates of the trade unions of Washington at the meeting held last night at 1006 E street northwest.

Objection was made to the suspension of Miss Alice Wood, teacher at Western High School, for the period of one week without pay on charges on which she was not granted hearing as provided by law with counsel present.

The refusal of the board thus far to grant the request of the High School and Grade Teachers' Union for a public hearing as requested and to divulge the names of those who voted for the suspension of Miss Wood, as requested by the Federal Employes' Association, was one of the issues of the resolution.

The resolution, which is to be submitted to the Board of Education, demands a public hearing for Miss Wood and also that the request of the High School and Grade Teachers' Union for a hearing on their letter sent to the Board of Education be granted.

At the meeting last night the entire organization pledged themselves to support the Barbers' Union of the city in their effort to obtain shorter hours of work.

SPARTACANS AND TROOPS CLASH

Four Persons Killed in Berlin in Street Riots Yesterday

DISARM REGIMENTS

German Government Making Every Precaution to Avert Serious Consequences—Official Warning.

London, April 8.—Government troops and Spartacans clashed in Berlin yesterday, the Amsterdam correspondent of the Post reported today. Two workmen and two soldiers are said to have been killed.

Two more regiments, suspected of treachery, have been disarmed, a dispatch from Berlin reported today.

Berlin, April 8.—The government is making every preparation today to avert any serious consequences from the soviet congress, which opens here today. It was believed that no effort will be made to interfere with the meeting so long as it remains orderly, but precautions will be taken to prevent the congress from turning into a purely anti-government demonstration.

An official warning to the people was issued through the Wolff Bureau "to be prepared for any emergency."

The cabinet made an announcement that was expected to have an important effect on the temper of the radicals. It made known that the government has accepted the constitutional amendment, providing for establishment of a national workmen's soviet as the third house of the legislative body.

The general strike continues to grow in other parts of the country. It was announced that more than 400,000 workmen are now out in the Essen and Busseldorf districts.

A Bavarian red army is being formed to resist any counter movement, either within Bavaria or from Prussia. Close relations will be established immediatly with Hungary and Russia.

KILLS THE MAN ON SIGHT

Father of Erring Girl Shoots Him at a Railroad Station.

Wilmington, Del., April 8.—Wm. H. Deats, 33 years old; of Penny Hill, was shot and killed yesterday morning at the French street station of the Pennsylvania Railroad by Geo. S. Lucas, 55 years old, a member of the railroad police force and formerly a sergeant of the Wilmington police department. The shooting, according to Mrs. Lucas, is the result of Deats, a married man, paying attention to Marion, the 18 year old daughter of the man who did the killing.

Lucas gave himself up and was taken to the police station, where a charge of murder was preferred against him. He is being held without bail.

Deats drove a truck for the railroad and was waiting for it to be loaded when he was shot while standing on the station platform.

Mrs. Lucas declared that Deats was warned on many occasions regarding his attentions to her daughter, but he persisted until, about three weeks ago, the girl left her home and went to live with him. It was not until Sunday that Mrs. Lucas learned that fact and she immediately went to the house and broke down a bedroom door when refused admittance. She found her daughter with Deats. She said that she was about to have a warrant sworn out for him at the time she heard of the shooting.

The dead man had two children—a boy of 5 years and a daughter of 9 years. His wife, who has been living with her mother, said Deats had not been home for several weeks.

Just six months ago today dear cousin,
Since you passed away to rest,
Though you're gone you're not forgotten
By the one who loved you best.
For oft my thoughts go wandering
To a grave not far away,
Where lie the sweetest memories
That will never fade away.
I can never forget you dear cousin
While in this world I stay,
For my heart has never been the same
Since the day you passed away.

His Cousin, Katie Bond.

LAWRENCE FACES JURY

Former Soldier Arraigned on the Charge of Murder

ACCIDENT IS CLAIM

Policeman Walker W. Campbell Alleged to Have Been Shot by Prisoner While Resisting Arrest.

The trial of James H. Lawrence, an ex-soldier, indicted for shooting and killing Policeman Walker W. Campbell on the night of the 14th of last February, took place today in the Corpoation Court. The prosecution was conducted by Commonwealth's Attorney Howard W. Smith, and Leith S. Bremner, of Richmond, Va., was counsel for the defense. But few spectators were present.

Thirty-six venire men appeared, and after the usual questions had ben propounded by the court, the jury was selected as follows: E. Francis Downham, Ralph A. Steele, Charles W. Entwisle, Smith M. Chauncey, Oliver P. Stone, Grafton Trenary, Charles E. Kell, Joseph K. Williams, H. J. Burke, Henry E. Harris, Andrew D. Deeton, and C. W. O'Meara.

Witnesses were then called and sworn.

None appeared for the defense.

Mr. Smith subsequently presented the case of the commonwealth, and was followed by Mr. Bremner, counsel for the prisoner.

The witnesses had been excluded from the room and called in separately.

Dr. R. C. Bailey was the first witness. He described the nature of Campbell's wound.

Policeman Padgett followed. He told of Lawrence breaking a bottle at King and Washington streets, the latter's arrest by Officer Campbell; witness went to the dead officer's assistance; Lawrence proceeded until he reached the centre of the square between St. Asaph and Pitt streets; Lawrence then refused to go with the officers ;tussel took place and witness heard the explosion of a pistol; did not know Campbell had been shot until the latter informed him; deceased told witness he had secured Lawrence's pistol; prisoner was under the influence of liquor.

Doctor R. J. Yates, who was called into consultation at th hospital, told of participating in the prelimaries of the operation upon the deceased.

Dr. M. D. Delaney followed. His testimony was concerning the nature of Campbell's wound.

Sergeant Wilkinson subsequently took the stand. Witness was at King and Columbus streets at the time of the shooting. Heard the smash of a bottle; saw Campbell arrest Lawrence ;saw Officer Padgett join deceased and his prisoner; heard a shot and drew near the trio; Campbell told the sergeant he had Lawrence's pistol; had proceeded over a square before witness knew Campbell had been shot; was told of the shooting by Officer Durrer; Lawrence was wearing his empty holster which witness took off him; prisoner was half drunk; Officer Durrer handed witness Lawrence's pistol after Campbell had been taken to the hospital.

Officer Durrer was the next witness. Heard report of a pistol while at King and Washington streets; saw Officer Campbell and Padgett with Lawrence; went to officers' assistance; Campbell handed witness's Lawrence's gun; deceased was placed in an automobile and taken to the hospital; witness recognized the pistol.

Officer Gill stated that he was at the station house at the time of the shooting; assisted in searching the prisoner; latter made no statement concerning the shooting.

W. P. Campbell, watchman at the Potomac Railroad Yards, stated that Lawrence appeared at the yards at night previous to the shooting; prisoner had been drinking and had liquor with him.

Chief Goods later took the stand. He visited Officer Campbell after the latter had been shot; deceased before the operation said: "They have got me; I am gone;" his mind was clear.

Officer William Campbell stated that he is a son of the deceased; told of statement his father made at the hospital which was ruled out by the court.

Lawrence was then placed on the stand. He said he is 24 years old; was born in Texas; was discharged from the army December 12, 1918; was special officer at the Potomac Yards ;was married November 16, 1918; had been drinking on the night of February 14; took a drink in this city and threw the bottle in the street ;said he told Officer Campbell when the latter placed him under arest that he was obliged to catch the 3:25 train for Richmond, he being a witness in a case in that city; opened his coat to show his badge which displayed his pistol; Campbell said, "Give me that gun;" prisoner grasped the pistol: was not in his hands when the weapon was discharged; did not know deceased ha been shot when he reached the station house; never uttered any threats against the dead officer. His testimony was to the effect that the shooting was accidental.

Upon being crossexamined he denied that he told Chief Goods and Sergeant Wilkinson he would allow no man to take his pistol from him.

Chief Goods again took the stand. Heard Lawrence tell Sergeant Wilkinson that he would not allow any one to take his pistol from him; this occurred between five and six o'clock on the morning following the shooting.

Sergeant Wilkinson was recalled. He said he heard Lawrence say he would not suffer any one to disarm him, which implied that Officer Campbell had attempted to take the pistol.

Court at one o'clock took a recess until 2:30.

NEGRO HELD FOR THE GRAND JURY

A special session of the police court was held last night for the purpose of examining James Diggs, Clarence Green and Beckie Mason, all colored, arrested in connection with the assault and robbery of J. McLeod, on the night of the 28th ultimo. The crime was committed in what is known as "chicken alley," in the northeastern section of the city. McLeod is a workman at the plant of the Virginia Shipbuilding Corporation. He was found unconscious and seriously injured in the alley, and was taken to the Alexandria Hospital. He was able to appear in court last night, but his condition is still far from normal.

The prosecution was conducted by Commonwealths Attorney Howard W. Smith, and Frederick P. Russell was counsel for the two men.

McLeod identified Beckie Mason as the woman he was with on the night he was assaulted and robbed of $190 and a gold watch and chain. She stated that Diggs struck McLeod and knocked him down and that she struck McLeod with a brick when ordered to do so by Diggs. The woman also stated that Green was present, but she would not say he participated in the assault.

Many witnesses, who were brought into court one at a time, were examined. Their testimony was in the main confusing and in some cases contradictory.

The two were held without bail for the action of the grand jury.

COFFEE, TEA AND CHOCOLATE.

The Millerites formed a flourishing sect in bygone years. They were Adventists, who fixed the second coming of Christ in 1843. The founder was William Miller, who was born in Massachusetts in 1782. He died in 1849. This sect denounced the use of coffee, tea and chocolate as beverages.

While Miller was in the flesh he delivered addresses on the second advent, and during the thirties, when a most brilliant meteoric shower took place ,the advent was believed to be the forerunner of the reappearance of the Son of Man. During the forties there were members of this persuasion in Alexandria, and they worshipped in a small frame house on the south side of Franklin street, near Patrick. We believe the house is still standing, forming part of a modern residence.

Descendants of the Millerites are still in the United States, although under other names. Many of this faith believe it is unlawful to eat pork, or to drink tea, coffee or chocolate. Other articles generally used as food are also prohibited.

Prof. Frederick W. Roman, of Syracuse, New York, University, recognized leader in the drive against tobacco says:

"The first phase of the campaign against the Indian plant takes the form of the Anti-Cigarette League and the No-Tobacco League of America. Organization of these is going on rapidly throughout the country. Ultimately we will stage anti-tea and coffee campaigns. Both must go. It is not a laughing matter by any means, but a real serious economic problem. The only reason no great headway has been made in the fight against tea and coffee is that no palatable substitute has been found for either."

THE DIGNITY OF LABOR

The great Epaminondas was deposed from his military command and was forced to become a scavenger. Upon being apprised of his demotion he said: "I've always endeavored to do my duty as a military commander, and I will do everything in order to perform my new duties satisfactorily."

Peter the Great worked in a shipyard in Holland, and most Americans who became famous in the history of our country were of so-called plebian origin and worked at humble occupations early in life. It would require a volume to tell of the early lives of Benjamin Franklin, Horace Greeley, Abraham Lincoln, Andrew Johnson, James A. Garfield and others who gained the top rung of the ladder.

One young woman who had nobly served others during her brief apprenticeship in unselfishness one day came out of the kitchen where she had gone to give an order to a servant and said to her mother, "What do you think, mother!" I found Lieutenant B—delivering our groceries! He said he had worked part way through college before he enlisted for the officers' "training camp, and he took the first job he could find! I invited him to come to dinner next Sunday."

"You must not do that!' the mother said sharply. "Go back and excuse yourself from such an invitation. He is not in our set!"

"But we had him here several times, mother! He is in every way worthy."

"It is not the same," said the mother.

"You mean, mother, that the overalls are not as good as the uniform?"

Alas for our boasted American democracy! The boy in overalls did not dine next Sunday with the American family. Of what use is all this talk about making the world safe for democracy if we have none of it ourselves!

COSTLY LEGISLATION

Lawmaking in West Virginia is an expensive proposition, considering the cost of the extra session just closed, which, it is figured, amounted to $3,000 a day, or $11 a minute. This means a little over $62,000 for the 20 days the Legislature was in session. Allowing six days to put the State police bill through means that that measure cost the taxpayers a little over $20,000, while the oil and gas tax bill was two days getting through the two branches and cost more than $12,000.

An hour's speech by a member in either the House or the Senate cost the taxpayers $660. Delay of the committees in reporting bills at the beginning of the extra session is estimated to have cost more than $10,000 and the pay of attaches was about $20,000. In comparison with this, the solons passed the Virginia Debt bill, which means the payment of a little over $18,000,000 during the next 20 years ;the State police protective measures, for which there will be an expenditure of $200,000 a year, and several other measures. All told, it is estimated that the 1919 extra session means to the taxpayers of West Virginia close to $1,000,000 yearly for the next 20 years, in addition to the taxes they are already paying.

TRAMP KING HAPPY TO BE BACK IN JAIL

Allentown, Pa., April 8.—Max Fisher, forty-nine, has not been out of jail for more than year at a time for the last htirty-five years and boasts of it.

Known here as the "King of Tramps," Fisher has been a hobo since early boyhood and has been involved in scores of robberies, according to his own statements.

Fisher got "in again" recently when he was accussed of connection with six burglary cases. Twenty years ago he shot the Weaversville postmaster. Only a few years after he had served time for that offense he was given fifteen years for burglary.

The "King of Tramps" was always proud of his close resemblance in personal appearance to the former Kaiser, and he is said to have lorded it over his companions of the road as truly as Bill ever ruled in the Fatherland.

Bavarians are rushing to Munich to support the newly proclaimed Soviet republic there. DON'T TEAR UP THAT OLD ROOF SAVE IT— TREAT IT WITH

STORMKING LIQUID

IT'S PUTTING MONEY IN THE BANK

A "Rejuvenator" For Old and Worn Roofs of any Description

What is the actual cost of your roof?—Not what you paid to have it laid, but, what it costs to maintain during the life of the building. Painting and repairs are a continuous expense, and at best give but temporary service. No matter how many coats of paint you put on your roof ,you will not obtain the results you will secure with one coat of **Stormking-Liquid**, which will renew the worst weather-beaten surface, increase it's life at a surprisingly small cost, eliminating all maintenance expense, painting and repairs.

Stormking-Liquid, has supplanted paint for protective purposes, because it gives greater durability, absolute and economical results. A surface treated with **Stormking-Liquid** is protected and will remain water tight indefinitely. It is easily applied by anyone with an ordinary three-knot roof paint brush. With one application you secure a one-piece continuous covering, without laps, seams, joints or nail holes, that is equal to at least one dozen coats of the leaviest roof paint.

The phenomenal success of **Stormking-Liquid** is attributed to the careful selection of weather and moisture resisting ingredients, which scientifically combined, produce a tenacious and indestructible coating, that is not affected by atmospherical changes, acids, rust, decay or corrosion. It is quickly applied at insignificant cost, over old and worn surfaces of any description, giving instant and permanent results.

DON'T THROW AWAY YOUR OLD SHOES

Make Them Wear Like New—As Did This Canadian Officer

A Canadian army officer, William Pemberton, of the famous Princess Pat Regiment, told of the extraordinary wear given him by a pair of army boots twice repaired with Neolin Soles.

"Six months of trench warfare under destructive conditions put the first pair of Neolin Soles out of business," said Lieutenant Pemberton, "but ordinary soles would have gone to pieces in much less time."

Don't throw away shoes that can be repaired. Have them re-bottomed with tough, durable Neolin Soles. Any cobbler or repairman will do the work for you. The price is no more than for soles that give less wear. Remember—Neolin Soles are created by science to be what soles should be. They are flexible and waterproof, as well as durable. They come on new shoes of all styles. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

NEBRASKA TORNADO

rotection Furnished by Cyclone Cellars Keeps Down Injured List

Omaha, Neb., April 8.—Twenty persons were injured and property damage estimated yesterday at $250,000, was done by a tornado which struck the western portion of Omaha late Sunday. Francis Micklen, 6, whose back was broken was the only one seriously injured.

About sixty houses in the path of the storm were damaged and several were completely destroyed.

The twister struck three blocks from where the disastrous tornado of 1913 started. General construction of cyclone cellars following the 1913 flow, is believed to have saved many lives.

COXEY ARMY AGAIN

Recruited for March on the Capitol in Washington—Wants Bryan on Staff.

New York, April 8.—The "I and R army" is being recruited for a march on Washington. The objective is not the capture of the National Capital and neither is it designed to enforce reparation, territorial guarantees, spheres of influence or mandatory selections. Its big goal is popular government—self-determination as it were.

The army will compose legions advocating the initiative and referendum as a part of the Federal constitution. Gen. Jacob Sechler Coxey, of Masillon, Ohio—the same Gen. Coxey who led the Commonweal army of unemployed to Washington in 1894 and was told to "keep off the grass"—is the C. O. and general staff all rolled into one.

Gen. Coxey is not concerned with the prohibition amendment primarily but the method by which it was tacked onto the Federal Constitution is one of the signs of the times that has stirred him to renewed action after twenty-five years of philosophical contemplation of passing events.

"What I do care about," he said today, "is the principal of popular government. I don't care a hang what happens to the dry amendment. But it was not enacted by the wish of the majority of the people; it was railroaded through. Now let us have the initiative and referendum, and if the majority of the people of the country really want liquor, they can petition for having the dry amendment submitted to a popular vot. If the amendment is sustained that is the last of liquor in this country.

Gen. Coxey plans to enlist William Jennings Bryan as a member of his general staff.

VIRGINIA NEWS

While four State prohibition agents are in jail, pending a hearing before a grand jury following the death of a pair of alleged bootleggers at Woodstock last week, the road between Baltimore and Richmond is an endless chain of whisky laden autos. Information received from a reliable source yesterday was to the effect that the night the agents were confined in the courthouse at Woodstock numerous automobiles, from limousines to "Lizzies" were seen to pass on the high way usually guarded by the agents.

Fire yesterday damaged the Garrett ex-winery at Norfolk to the extent of $100,000. The building is used by the Imperial Tobacco Co., as a warehouse and was filled with tobacco in bulk.

Jack Martin, the 8 year old son of Frank Martin, was removed to the hospital in Danville Tuesday evening, suffering from a mangled leg. The boy, with other playmates, was swinging onto a wagon driven by a man whose identity has not been learned, when Martin accidentally put his foot through the rear wheel. The limb was severely torn, and it is was feared that it would have to be amputated. Doctors now say they can save the member.

The attempt to shift responsibility for three pints of whisky to a crowd of joy riding sailors failed in the Supreme Court of Appeals Thursday, when Nat Fine, who was found guilty in the Corporation Court of the City of Norfolk of having the liquor in his automobile and given thirty days in jail, with a fine of $200, was refused a review of the case. Distinction was drawn by Fine's attorney between an automobile and a home, so far as responsibility for their contents is concerned. He argued that the mere fact that goods are found in a car, which is a certain man's personal property, does not definitely fix their ownership, whereas a householder may always be held responsible for what is in his house, sacred to himself and his family.

Ensigns A. A. Pullian and B. Thomas, connected with Navy Air Station at Hampton Roads, miraculously escaped death when the big hydroplane in which they were riding fell 600 feet to the lawn in front of the Chamberlain Hotel yesterday afternoon.

Demanding an increase in wages and declaring that appeals for consideraton had been ignored, 900 stevedores handling freight on the railroad adminstration controlled wharves and ships at Norfolk walked out yesterday. Coastwise shipping is almost completley tied up by the action of the men and truck shippers are reported liable to sustain heavy losses. Bunkering and foreign shipping will not be interrupted.

William Beverly, of Broad Run, Fauquier county, says he has been keeping a diary since 1878 and April 1st was the coldest morning this late in the season we have had during that time. The thermometer stood 22 degrees at 7o'clock, with snow three inches deep. We had a snow on April 12 last 14 inches deep, but the thermometer did not go lower than 30 degrees. This must be the coldest weather for April on record.

HUSBAND AND WIFE DEAD

William Parker Murders Spouse And is Killed by Her Father.

Anniston, Ala., April 8.—Information was received yesterday morning of a double tragedy at Fruithurst, Cleburne County. William Parker, a merchant, the report says, shot and killed his wife and was in turn killed by Richard Hooper, father of Mrs. Parker.

The shooting occurred in front of the postoffice in Fruithurst. Mrs. Parker and her baby, in company with her father, drove up to the postoffice and were met by Parker, who took the baby from the buggy into his store, then returned and shot and killed his wife.

Hooper then leaped from the buggy with a knife in his hand and, seizing Parker around the neck, cut his throat severing the jugglar vein. Parker, it is said, staggered into his store and dropped dead.

The Parkers had been separated, it is said, because of Parker's alleged cruel treatment of his wife.

KILLED BY A WOMAN

Mrs. J. T. Collins, wife of the former sheriff of Blytheville, Ark., was accidentally shot and killed yesterday afternoon when a rifle was jarred from the kitchen cabinet in her home by a closing door. The ball entered her heart.

MENACE OF BOLSHEVISM

Intend to Make Furious Spring Drive on Central Europe.

A furious spring drive against the center of Europe by Bolshevik armies is what military experts in Washington see in statements given out yesterday by the State Department.

State officials made public news from Petrograd via Helsingfors to the effect that the Bolsheviki are concentrating on "troop transportation on a large scale" and that they were concentrating also on an increase in the factories for the manufacture of munitions of war.

According to the opinion of the military men, it is a very ominous fact that the British Ambassador at Washington said that Great Britain was not offering to recognize the Soviet government. If Great Britain does not recognize it, there is not the slightest chance that either France or Italy will, so that the advance of the Bolsheviki on their spring offensive will be substantially a drive to undo all the work of the Peace Conference.

The outbreak of the Bolshevik war on Central and Western Europe, they say, may, as a matter of fact, have to be dealt with before the Peace Conference adjourns.

Army men look on the prospect as something too real and too enormous to be dealt with by any other force than the armies of the allies.

JACK THE WIRE CLIPPER

Demented Man, Who Claims Mind is Clear, Ties up Traffic.

Butler, Pa., April 8.—Traffic on the Bessemer and Lake Erie Railroad interurban and street car lines was paralyzed for eight hours early yesterday and the city was in darkness last night because Givona Bolinola, 40, of Pittsburgh, went on a rampage and with his "little wire clippers," as he called them, gave the police and a squad of wire repairmen a busy time.

According to the police, Bolinola is demented, but he maintains his "mind is clear" and that he was detailed to cut every wire in Butler. He nearly had succeeded in attaining his object when he was captured by police shortly after midnight while climbing a flag pole on the roof of the municipal building.

TRAINS RUN SLOW

Shortage of Fuel Makes Traveling Difficult in Vienna And Passes Cost $500.

Vienna, April 8.—The train servite is exceedingly slow, owing to lack of coal, and the trains in either direction are by no means crowded. Fewer people are escaping from Vienna, though it is possible to leave the city if one is able to pay $500 secretly for a pass.

The foreign correspondents and local newspaper men have been classified as first grade workers. The work of requisitioning clothes and furniture is going on among the homes of the people. The men take their loss indifferently, but the women are tearful at losing their beloved possessions.

Wiener Neustadt, an industrial center, is reported to be under control of the Soviet.

ARREST CHURCHMEN

Deacons Had Collection Money Piled Up On Sidewalk.

Atlanta, Ga., April 8.—Military police and city detectives found themselves "in the wrong pew" Sunday afternoon when they raided what appeared to be a craps game in full tilt on a street corner in the negro section of the city.

They saw a group of negroes in a circle about a pile of money on the sidewalk. Wholesale arrests followed. Then one negro explained that they were all deacons of the church and were checking up the day's "collection fo de army ob de Lawd." Proof being forthcoming, they were released.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit.

The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules, imported direct from the laboratories in Holland. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.

FOUNDER OF 5 AND 10 CENT STORE DEAD

New York, April 8.—Frank W. Woolworth, owner of the Woolworth building and of a chain of 5 and 10 cent stores, died today at his home, Glen Cove, L. I.

Woolworth, who was sixty-seven years old, had been ill for several months.

The extent of his fortune is unknown, but the Woolworth Company was capitalized at $65,000,000 and operated 850 stores. He started business life as a salesman at $8 a week.

At the time of death, those at the bedside included his brother, Sumner Woolworth, Scranton, Pa., and his two daughters, Mrs. Helena McCann, and Mrs. Jesse Donohue.

He was born in Rodman, Jefferson county, N. Y., April 13, 1852, the son of John H. and Fanny (McBrier) Woolworth. On the paternal side his ancestry is English, the family having settled at Newburyport, Mass., in colonial days. His great-grandfather, Phineas Woolworth, having, as a lad of seventeen, enlisted in the colonial militia, saw service in the pre-revolutionary disturbances. On the maternal side, his ancestry is of Scotch-Irish stock.

Mr. Woolworth wa seducated at Iman and Great Bend. Beginning in the autumn of 1870, he took two terms in the Commercial College, at Watertown, N. Y.

He entered the employ of Moore & Smith at Watertown, a firm that had a small 5-cent counter that gave Mr. Woolworth the idea from which was developed the great chain of stores.

Mr. Woodworth was a member of the chamber of commerce and of the merchants' association; the Union League, the Arkwright, Lotos and Hardware Clubs, of New York city, and of the Automobile Club of America.

He married, on June 11, 1876, Miss Jennie Creighton, daughter of Thomas Creghton, of Picton, Ontario. Of this marriage three daughters have been born—Helena, Edna and Jesse, the first two being married.

MAY BEAT WETS

Unless Michigan Cities Poll Heavy Vote for Light Wines, Move Seems Lost

Detroit, Mich., April 8.—Various local issues, including the beer and wine amendment, were factors in drawing out yesterday what is probably the heaviest vote in the history of Detroit. Voting continued until 8 p. m., consequently the results cannot be determined early as the ballot was a complicated one.

Early returns from rural districts indicate the wets must depend entirely on the cities if they expect to win. First compilation from all rural districts show:

Net 654; dry, 2,625.

Wets claim Detroit by 50,000.

In fourten rural precincts in Gratiot, Ingham, Genesee, Lenawee and Muskegon counties out of 2,310 in the State early returns give the "dry" forces 2,625 and the "wets" 654 votes. Five of thirty-nine in Muskegon County give the "dry" total of 201 with forty-two "wets."

Presence of women voters for the first time in large numbers was a feature of the day at the various polling places throughout Detroit and Michigan. Including women voters, Detriot's registration is now about 250,000 and it is estimated that approximately 150,000 ballots had been cast in the city before the closing of the polling booths.

Republicans are predicting they will carry the State by 150,000.

Telephone company officials declare that if the telephones are not soon used they will be removed.

BRIDESMAID DIES OF BURNS

Bride's Veil, Lighted by Candle, Ignited Her Gown.

Rockville, Md., April 8.—Miss Elizabeth Willson, aged 16, daughter of Mr. and Mrs. George A. Willson, died Sunday afternoon at her home, near Lay Hill, this county, under peculiarly sad circumstances.

At the wedding of her brother, Frank F. Willson, and Miss Linda A. Waters, which took place last Thursday evening at the home of the bride's parents, Mr. and Mrs. Edwin Waters, at Woodside, this county, and at which Miss Willson was a bridesmaid, the veil of the bride caught fire from a lighted candle.

The burning veil was thrown on the floor so close to Miss Willson that her gown, which was of highly inflammable material, ignited, enveloping her in flames. Several men wrapped their coats around her, but she suffered horrible burns about the body and face.

The accident occured shortly after the ceremony.
